Don,

First of all I want to say that Level 8 brought so much information and hope that I can hardly wait to process the lecture material and the experiential aspect so that I can hit the ground running. WOW!!!

Secondly, I thought you might be interested in the information I channeled a few minutes ago:

I recently participated in Level 8 taught by Don Massat at Beyond Wellness and am still processing what I learned and experienced. Please provide me with your insight and let me know if you have a message that I may pass along to Don.

You have expanded your knowledge base and entered a realm of deeper understanding. Your connection to the Universe offers you many opportunities to tap into sources of information that will provide you with answers to satisfy your curious mind. No question is too difficult to offer a response which will open doors to many possibilities and lead you to an expansive place which allows availability to everyone. Endless information keeps alive the desire to know, wonder and search in ways that may seem unconventional to most yet offers Truth - plain and simple. Continue your quest to seek out spirit guides who look forward to joining with you in an exchange of curiosities both on this earthly plane and galaxies beyond.

~~We would like to applaud Don for his efforts in bringing about a continued awareness of the capabilities that physical beings possess when they open their hearts and trust the Universe. We strongly support his dedication and devotion to dimensions beyond this earthly plane since many of us observe that his intention is to explore the Universal Truth and incorporate such a concept in his work. Let him know that we uphold his work ethic and integrity which breathes credibility into his progress and accomplishments. Soon there will be a further shift which will minimize previous obstacles and allow him to take a quantum leap into future projects. Know that we are available at any time to provide continued information and encourage his journey so that he may eliminate barriers and build a long-awaited platform for healing, thought and adventure.~~

The Light continues to guide you on your journey . . .

Heart2Heart,
Carole
